WILSON THINKING OF TOUR

President Is Expected to Make
Speaking Trip in States Where
Senators Oppose League.

By The Associated Press.

PAID: Friday, May 21.—A special session of both houses of the 66th congress will probably be called in May, the date when President Wilson hopes to return to the United States.

It is expected that if the treaty of Versailles is sufficiently advanced to warrant such a session, a special session of the senate may be called in May, the date when President Wilson hopes to return to the United States.

MAJORITY MAY ALTER CONDITIONS OF PEACE

Senators Point Out That Two-Thirds
Vote Is Not Required to Insert
or Change Terms.

WASHINGTON, March 22.—Reports from Paris of plans to convene the construction of the league of nations treaty in the peace treaty, developed discussion among senators still in Washington of questions of senate procedure, not hitherto emphasized.

Although a two-thirds vote of the senate is required for ratification of treaties, senators pointed out that under the rule, amendments may be adopted by a majority vote. Senators from Idaho, republican, a critic of the league plan, declared this would give opponents a distinct advantage as it would enable a bare majority to revise the league constitution or separate it from the peace treaty.

Other senators, however, said the majority rule might well become an important asset of senators supporting the league. The latter believe a considerable majority of the senate membership favors a league of nations, although they estimate that more than a majority oppose the existing draft.

Senator Drexler of Washington, republican, in a formal statement tonight said the "efforts to cover the United States into an acceptance of the league of nations by weaving the plan into the peace treaty" would fail. He said a sufficient number of senators to insure defeat of the league already was on record against it and added that "public sentiment in this country is overwhelmingly against it."

Consideration of the peace treaty is expected by senators to be among the first questions which will be taken up after the new senate is organized. It probably will be given exclusive attention while the public is busy with remaining appropriation bills. A preliminary controversy is promised over the demand for open debate of the treaty.

Liabilities of Belgium Nine and Half Billion Francs; Plan New Taxes

BRUSSELS, March 22.—The liabilities of Belgium total more than 9,500,000,000 francs, 8,000,000,000 of which are war expenses. This announcement was made by Premier Delauroy in the chamber of deputies Friday in giving out figures for the annual budget.

He said that the budget henceforth would be 1,100,000,000 francs.

The premier informed the deputies that the increase in liabilities would have to be met by new taxes, including an income tax and taxes on inheritance, tobacco, beer and alcohol.

The president is also keeping in touch with the development of senators in the United States toward a league of nations. If the situation appears to him to demand such action, it is not unlikely that shortly after his return from Europe he will make an extended speaking tour, presenting his view of the situation to the voters in the states where senators are opposed to the ratification of the league plan.

SAVINGS

More people have opened new savings accounts in the Exchange National during the past month than in any like period of the bank's history.

It is evident that the habits of thrift taught by the privations of war have been well learned.

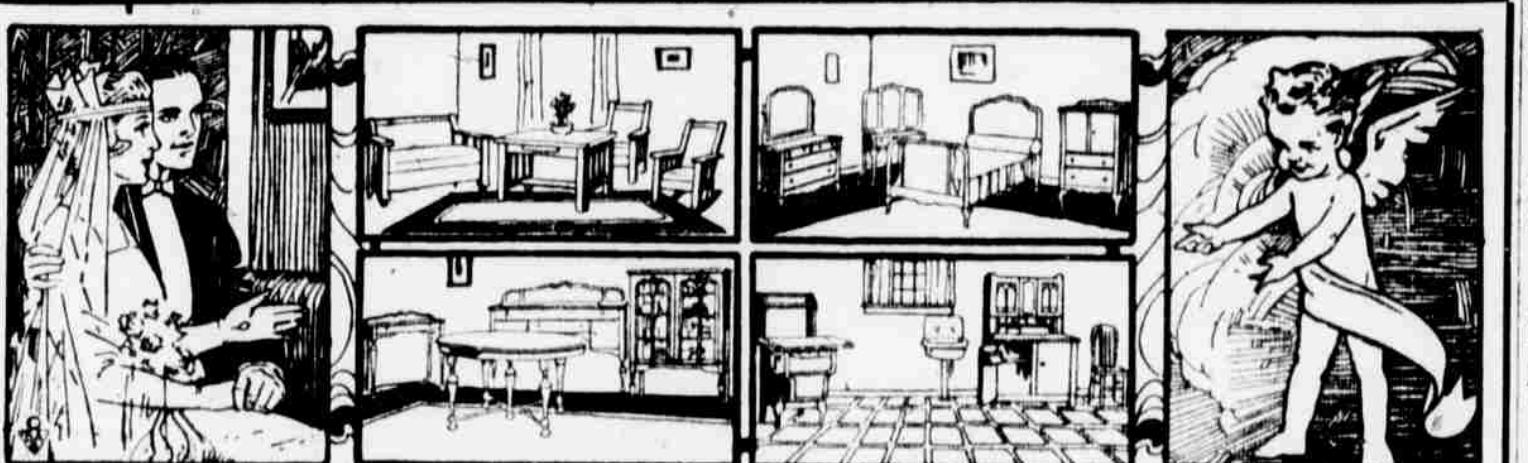

We believe that in future years ten people will save to one who practiced thrift in pre-war days.

Widespread savings will be one of the very few blessings of war.

We invite you to open a savings account here. You may start as low as \$1.00. We pay 4 per cent interest, computed each 6 months, and make no charge for service.
